1. The town of Ustka has two bridges, one of which is located near the railroad station and connects the town of Ustka with the roads leading to Slawno (Schlawe) and Slupsk (Stolp). This bridge, which was built by the Germans and repaired by the Soviets after the war because of some war damages, is of iron construction, arch type and has only one span about 35 meters in length. The bridge has a two-lane way for motor vehicles and footwalks about 1.5 meters in width on each side.
2. The second bridge in Ustka is located about 200 meters west of the railroad station and also connects the town of Ustka with the roads leading to Slawno (Schlawe) and Slupsk (Stolp). This bridge is constructed of concrete, vaulted construction, and is 23 meters in length and about four meters above the water. The bridge has a two-lane way for motor vehicles and footwalks on the sides.
